

PCI COMPLIANCE SOLUTIONS

EarthLink Business PCI Compliance Validation allows you to verify your level of PCI compliance with easy-to-use, Web-based tools.

PCI Compliance Validation

Merchants who accept American Express®, Discover®, Japan Credit Bureau (JCB), MasterCard® or Visa® credit cards are required to protect cardholder data under the Payment Card Industry Data Security Standards (PCI DSS). Merchants are divided into four levels, based on the number of transactions they handle. EarthLink Business helps level two through four merchants who must meet 12 PCI DSS compliance requirements.

Risk

Internet-based credit card information theft becomes more prevalent every day. Financial losses are staggering and result in more than \$1 billion per year.

PCI Compliance Lowers Risk

The PCI Security Standards Council created comprehensive rules all merchants who accept credit cards must follow. Fully implementing PCI DSS reduces the risk of becoming a data-breach victim.

Data Breach Protection Up to \$100,000 Per Location*

Data Breach Protection provides a merchant up to \$100,000 per location to cover expenses if a customer's credit card information is breached. Covered expenses are:

- A forensic audit performed by a Qualified Security Assessor (QSA), as required by PCI DSS.
- Replacement credit cards and related expenses.
- Fines and penalties incurred as a result of the breach.
- Two-hour telephone consultation with a QSA.

Data Breach Statistics

- Some experts forecast that as many as one in six merchants will be breached.¹
- Small businesses are particularly vulnerable; according to Visa, 97% of U.S. events occurred at small merchants, and 91% of those were brick and mortar merchants.²

¹ PCI Standards Council Annual Meeting 2011, QSA/ASV General Session, 9/20/11 – IC3 Executive.

² Visa Data Security & Authentication Symposium: Securing Your Business Growth, 6/6/12, <http://usa.visa.com/download/merchants/symposium-website-2012.pdf>.

FEATURES

- Security policy
- Online, Web-based training
- Access to online knowledge base
- Quarterly Authorized Scan Vendor (ASV) scans
- Online self-assessment
- Up to \$100,000 in breach protection per location

BENEFITS

- Protect your business finances and customers
- Validate your PCI Compliance level and risk level
- Mitigate risks to avoid fines and lawsuits

*The PCI Compliance Validation and Data Breach Protection Services, which are being resold by EarthLink Business, will be provided and serviced by ANXeBusiness Corp. The PCI Compliance Validation Service is not a guarantee that a data breach will not occur, and alone cannot prevent losses. EarthLink Business makes no representations as to whether the Data Breach Protection Service will apply to, or cover, any particular claim or loss.
